

**On Land Rovers they are always fitted in the trailing position.**

### CA846 (Trailing)

Inboard cast No. 3247- 638C  
Outboard cast No. 3247- 654C  
Single inlet  
Single bleed  
Pad Pins = 5.6 mm  
Mounting Holes = 12 mm  
Solid discs

### CA846R (Trailing)

Inboard cast No. 3247- 637C  
Outboard cast No. 3247- 654C

**On an LDV they are always fitted in the leading position.**

When these calipers are used on an LDV they are fitted in the leading position and therefore CA846R should be fitted to the near side.

When these units are used on Land Rovers they are fitted in the trailing position
